

# Technical Data Sheet

## OXON Professional

### A48-500

#### Description:

Latest generation additive to pre-wash whites and colours. Bleaching and spotting additive, already active at 20°.

- It effectively eliminates stubborn stains.
- Bleacher active at cold temperatures. It guarantees an excellent white degree.
- It makes coloured garments brilliant
- It hygienises already at low temperatures
- It doesn't damage fibres even the more delicate ones.
- It can be used directly on garments as pre-spotter. It is very efficient on mould stains.

#### How To Use:

It can be used on both natural and synthetic garments.

If used as pre-spotter, test the product on a hidden part before its application.
